

Project Design Phase-II

Data Flow Diagram & User Stories

Date	18 October 2022
Team ID	PNT2022TMID32621
Project Name	Flight Delay Prediction Using Machine Learning
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

User Stories

Use the below template to list all the user stories for the product.

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Customer (Web user)	Dashboard	USN-1	As a user, I can provide data to predict flight delay	I can provide valid Input data	High	Sprint-2
	Prediction	USN-2	As a user, I can provide data so that the model will be able to predict	I can get prediction by giving valid input	High	Sprint-3
Developer	Testing	USN-3	As a developer, I test the application which I have developed	I test the application for checking errors and rectify it	High	Sprint-2
